PROFESSIONAL SUMMARY

Frontend Engineer with a B.Sc. in Computer Science and hands-on experience building web applications using JavaScript, TypeScript, React and Tailwind CSS. Familiar with API integration, responsive interface development, git, and backend technologies including Node.js and Express.js. Experienced in developing software and teaching programming concepts. Focused on building user-friendly, maintainable web applications and contributing to collaborative software development team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript & Java
Frontend: React, Tailwind CSS, HTML5, CSS3, Responsive UI Development
Tools & Integration: Git, GitHub, Rest API Integration, Browser Development Tools
Additional Technologies: Node.js, Express.js, MongoDB, Authentication and Authorization.

SOFTWARE ENGINEERING PROJECTS

Ecommerce store

Technologies*: React, TypeScript, Tailwind CSS, Node.js, Express.js & MongoDB*

- Developed an e-commerce application for purchasing gadgets.
- Integrated frontend components with backend REST APIs built using Node.js and Express.js to support communication between the user interface and server-side application logic.
  Used MongoDB to store and manage application data.
  Live URL: https://techielaptops.netlify.app/

Weather Application

Technologies*: React, TypeScript, Tailwind CSS*

- Developed a real time weather application.
- Integrated a weather data API, where applicable, to retrieve current weather conditions based on a user's selected location or search input.
- Implemented location-based search functionality to allow users to look up weather information for different cities.

PROFESSIONAL & TECHNICAL EXPERIENCE

Frontend Developer | Zsoft Solutions

January 2024 – Till Present

- Worked on API integrations and backend functionality to support application features.
- Built reusable React components to improve code organization, maintainability, and consistency across application pages.
- Integrated RESTful APIs to retrieve, submit, and display application data, enabling communication between frontend interfaces and backend services.
- Implemented interactive application features, including form handling, input validation, dynamic content rendering, and user interface interactions.
- Applied responsive design principles to ensure web interfaces remained usable across desktop, tablet, and mobile devices.

IT / Programming Instructor | CITOM Technologies - Affiliate of Cisco Networking Academy

May 2025 - July 2025 (Contract)

- Delivered practical programming and digital technology lessons to secondary-school students, covering programming fundamentals, computational thinking, algorithms, variables, conditional statements, loops, and functions.
- Taught web development fundamentals using HTML5, CSS3, and JavaScript, guiding students in building structured web pages, styling interfaces, and implementing interactive features.
- Developed hands-on coding exercises, assignments, and mini-projects to reinforce classroom learning and encourage independent problem-solving.
- Evaluated students' progress through practical assignments and project demonstrations, providing feedback to improve their programming skills.

National Space Research & Development Agency (NASDRA)

2023–2024 | NYSC / Service Period

- Provided technical support, troubleshooting, system setup, and configuration for users and technical equipment.
- Completed the mandatory National Youth Service Corps programme at the National Space Research and Development Agency.
- Gained exposure to a government research and technology environment, developing an understanding of professional workplace practices and organizational operations.

MERN Stack Developer | Migrant Solutions

October 2021 – November 2022 | Internship

- Collaborated on debugging, implementation, and optimization of application functionality.
- Developed interactive frontend components using React.js, HTML5, CSS3, and JavaScript to support application functionality and improve user experience.
- Assisted with backend development using Node.js and Express.js, implementing server-side logic and RESTful API endpoints to support frontend application features.
- Worked with MongoDB to support data storage, retrieval, and management for application features.
- Collaborated with team members to implement new features, maintain existing code, and resolve frontend and backend integration issues.

EDUCATION

B.Sc. Computer Science | University of Nigeria, Nsukka (UNN)

Graduated 2022

National Youth Service Corps (NYSC)

2023-2024

ADDITIONAL

Professional Interests: Frontend Engineering, Web Application
