KENECHUKWU EMMANUEL NWOBODO

FULL-STACK SOFTWARE ENGINEER

Abuja, Nigeria | +2348168789414 | nwobodokenechukwu2@gmail.com
LinkedIn: linkedin.com/in/kenechukwunwobodo/ | GitHub: github.com/Kene10-codes

PROFESSIONAL SUMMARY

Software Engineer with a B.Sc. in Computer Science and hands-on experience across software development. Strong foundation in JavaScript/TypeScript, React, Node.js, REST APIs, databases, and Git. Built and maintained software projects while developing a technology business and teaching programming. Currently focused on returning to a dedicated software engineering role where I can contribute to production applications and continue growing as a full-stack engineer.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frontend: React, Tailwind CSS, Responsive UI Development
Backend: Node.js, Express.js, REST API Development
Databases: MongoDB, PostgreSQL, MySQL
Engineering: Authentication, API Integration
Tools: Git, GitHub, Swagger

SELECTED SOFTWARE ENGINEERING PROJECTS

Techie Laptops - Full-Stack Ecommerce Platform | *React, TypeScript, Tailwind CSS, Node.js, MongoDB*

- Developing a full-stack ecommerce platform for a gadget retail business, covering customer shopping and administrative workflows.
- Implementing product catalogue, search and filtering, product details, cart, checkout, order management, and customer account functionality.
- Building authentication and role-based access control for customer and administrative users.
- Developing APIs and database models for products, inventory, customers, orders, discounts, and reviews.
- Designing the platform to support payment integration, notifications, analytics, and scalable business operations.

Backend API & Web Applications | *JavaScript/TypeScript, Node.js, Express/NestJS, PostgreSQL/MongoDB*

- Built REST APIs and backend services for web applications using Node.js-based technologies.
- Implemented API integrations, authentication workflows, and server-side business logic.
- Worked with relational and NoSQL databases, including schema design, queries, and data management.
- Used Git/GitHub for version control and iterative development.

PROFESSIONAL & TECHNICAL EXPERIENCE

IT / Programming Instructor | CITOM Technologies - Affiliate of Cisco Networking Academy

May 2025 - July 2025 (Contract)

- Teach programming and digital technology concepts to secondary-school students.
- Deliver practical lessons in JavaScript, HTML, CSS, Scratch, and programming fundamentals.
- Create coding exercises and projects that translate programming concepts into practical applications.
- Strengthened communication, problem-solving, debugging, and ability to explain technical concepts clearly.

IT Technical Support | NASDRA

2023–2024 | NYSC / Service Period

- Provided technical support, troubleshooting, system setup, and configuration for users and technical equipment.
- Resolved helpdesk issues and supported users with hardware and software problems.
- Assisted with technical training and communicated solutions to users with varying levels of technical knowledge.
- Developed practical experience in structured technical operations, issue resolution, and user support.

Software Developer (Internship) | Zsoft Solutions Ltd

2022 | Approximately 4–5 months

- Developed and supported software solutions using JavaScript/Node.js technologies and REST APIs.
- Worked on API integrations and backend functionality to support application features.
- Collaborated on debugging, implementation, and optimization of application functionality.
- Gained practical experience translating requirements into working software in a professional environment.

Founder | Techie Laptops

2022 – Present

- Founded and operate a technology retail business focused on laptops, phones, gaming products, accessories, and related gadgets.
- Manage digital sales, customer communication, product operations, marketing, and after-sales support.
- Developing a custom ecommerce platform to digitize product catalogue, ordering, inventory, customer, and order-management workflows.
- Use customer and sales information to guide product selection, pricing, marketing, and business decisions.

EDUCATION

B.Sc. Computer Science | University of Nigeria, Nsukka (UNN)

Graduated 2022

ADDITIONAL

Professional Interests: Full-Stack Engineering, Backend Systems, APIs, Ecommerce Platforms, Web Applications
